

Dyslexia: Empowering Kids Through Inclusive Learning

Innovative Website for Dyslexic Kids

A new website designed for dyslexic children. We offer tools that transform learning experiences.

Our interactive platform helps kids read, write, and learn.

With personalized lessons, we address challenges of dyslexia.

Understanding Dyslexia

Dyslexia is a learning disorder. It involves difficulty reading due to problems identifying speech sounds. It affects millions of children globally.

Specialized learning platforms are essential. These platforms address unique challenges faced by dyslexic learners.

Website Goals: Empowering Literacy

Skill Improvement

Phonics-based learning to boost reading and writing skills.

Boost Confidence

Gamified learning for fun progress tracking.

Accessibility

Text-to-speech and adjustable fonts.

Parental Involvement

Progress tracking and support.

1. Phonics Fun

Sound out the get word.

Game Tracker

Track progress of the game.

4. Easy Access

Big profile of the user.
